

## Programmable Slow Cooker DLSC445

Large 6.5 litre/quart capacity for delicious family style meals - ready when you get home

Elegant stainless steel

Versatile ceramic casserole can be used in the freezer, refrigerator, microwave, convection or conventional oven or doubles as a serving dish

Programmable control pad selects time, temperature and switches to "warm" once cooking is complete

Low heat tenderizes less expensive cuts of meat

Domed lid allows condensation to drip back inside forming a water seal that helps retain flavour and heat

See-through tempered glass lid to monitor the cooking process

Dishwasher safe ceramic casserole and lid
